THE SPORT IQ & DIALMATE AI TECHNOLOGY ADVANTAGE

PROPRIETARY AI PIPELINE

Unlike traditional media startups that hemorrhage capital on third-party agencies and massive editorial desks, **SPORT IQ** is engineered on **Dialmate AI's proprietary real-time AI summarization, automated infographic pipelines, and low-latency infrastructure**. This unlocks an asymmetric 85%+ gross margin and zero vendor software burn from Day 1.

 **The Structural Market Void**

- Legacy Scorecard Apps (Cricbuzz, ESPNcricinfo):** Cluttered with ad banners, slow mobile UX, zero snackable short-form video or Gen-Z engagement.
- Broadcast Giants (JioHotstar, SonyLIV):** High-friction video streams unsuited for quick 30-second match pulse checks on the go.
- Fragmented Social Feeds:** Unverified meme pages with irregular schedules and zero real-time live data fidelity.

 **The SPORT IQ Solution ("15-Second Match Pulse")**

- AI-Curated Micro-Bulletins:** Instant match highlights, key tactical pivots, and live scorecards condensed into 40-word cards.
- Automated Visual Cards & Memes:** Instant generation of high-contrast social cards for WhatsApp, Instagram, and Telegram.
- Featherlight PWA & Mobile App:** Sub-second load times, push notifications faster than broadcast TV, and zero clutter.

MARKET SIZING & CONSUMPTION TAILWINDS (INDIA 2026-2030)

CAGR 24.8%

TAM: 650M Sports Fans
India's total smartphone digital sports audience across Cricket, Football, Kabaddi, and F1.

SAM: 180M Short-Form Fans
Urban and semi-urban fans consuming snackable sports reels, WhatsApp status cards, and Telegram alerts.

SOM: 5M Target Users
High-intent sports followers reached via SPORT IQ's creator network over a 24-month roadmap.

⚡ CORE LEADERSHIP MANDATES & ZERO-AGENCY EXECUTION MOAT

ASYMMETRIC FOUNDER MOAT

The foundation of our lean capital efficiency is a strict, complementary division of execution between co-founders. With zero tech-vendor dependencies and zero agency middlemen for creator distribution, every rupee of the ₹5 Lakh seed round translates directly into product capability and targeted user acquisition.

Sayan Bhattacharya
CO-FOUNDER, CHIEF TECHNOLOGY OFFICER & HEAD OF PRODUCT

TECH & ARCHITECTURE

Strategic Mandate: End-to-end ownership of the technological stack, AI ingestion engines, low-latency live score pipelines, automated card rendering microservices, and product UI/UX performance.

Key Operational Responsibilities:

- AI Bulletin Pipeline:** Engineering natural language summarization algorithms to process match feeds into 35-word crisp bulletins within 2.5 seconds of play events.
- Full-Stack Platform Development:** Building the lightning-fast PWA and React Native/Flutter mobile app with offline caching and instant push notifications.
- Automated Card Generation:** Developing serverless image/motion generators for instant scorecards, tactical memes, and visual statistics.
- Cloud & Security Infrastructure:** Managing Supabase, AWS Lambda/Vercel serverless clusters, Cloudflare edge caching, and live sports API data ingestion.
- Telemetry & Data Analytics:** Implementing user telemetry, retention funnels, latency trackers, and A/B feature test suites.

📈 Uptime > 99.9%

📈 Bulletin Latency < 2.5s

📈 App Load < 800ms

GROWTH & PARTNERSHIPS

Strategic Mandate: End-to-end ownership of user acquisition, creator syndication networks, viral hook creation, social media growth hacking, brand sponsorship sales, and community monetization.

Key Operational Responsibilities:

- Creator & Influencer Syndication:** Direct sourcing, negotiating, and onboarding of 50+ micro-creators (10k-70k followers) across regional cricket/football fandoms at zero agency margin bleed.
- Viral Social Hijacking:** Managing real-time match threads on X/Twitter, viral Instagram Reels distribution, and high-retention meme channels.
- Community Channel Scale:** Building and moderating high-engagement WhatsApp VIP Broadcast channels and Telegram match-day bulletin groups.
- Brand Monetization & BD:** Pitching and securing direct sponsor slots on daily match bulletins, fantasy sports affiliate deals, and sports brand partnerships.
- User Feedback & Growth Loops:** Tracking CAC, viral K-factor, referral incentives, and funneling user feedback directly to product sprints.
